Scope of Work (background, timeline, and task summary)

Survey Instruments and Instructions

Groundwater Conservation District Survey

Stakeholder Survey

Scientific studies

Stakeholder comments*

Wrap up

* The Carrizo Wilcox Study is designed to solicit and continually integrate stakeholder input and concerns about the Carrizo Wilcox Aquifer throughout the duration of the study. All comments and concerns are welcomed, both oral and in writing. In order to ensure accurate documentation of oral comments, the meeting will be recorded. Written comments and concerns will be accepted at anytime throughout the study, and may be submitted through a link on the Carrizo Wilcox Study web page at <http://www.beg.utexas.edu/cswr/aquiferstudy/>
