

Ian James. Duncan

Professional Summary

August 24, 2025

Business address: The University of Texas at Austin
Bureau of Economic Geology
10100 Burnet Rd., Bldg. 130
Austin, TX 78758
Telephone: (512) 471-5117
E-mail address: ian.duncan@beg.utexas.edu

Professional Preparation

Academic Background

Ph.D. Geology, University of British Columbia, Vancouver, Canada, 1982

B.A., Honors I, Earth Sciences, Macquarie University, Sydney, Australia, 1974

Professional Appointments

Present Position: Associate Director and Research Scientist, Bureau of Economic Geology, The University of Texas at Austin (July 2004 - Present). Acting manager of BEG's Gulf Coast Carbon Center, agency expert on clean coal technologies and integrating carbon capture into enhanced oil recovery (EOR) projects.

Principal investigator for multiple water resources, environmental geology, and natural resource investigations.

Geologist Consultant (Scientist Manager II), Virginia Department of mines, Minerals, and Energy (2001 - June 2004). Management and writing of grants and contracts (including in 2003, writing grant applications for DMME and DMR); team leader for DMR State Map funded project focusing on stratigraphic, structural, and Quaternary surficial geological mapping in the Valley and Ridge; team leader of DMME Information Technology Task Force (including oversight of DMME's Electronic Permitting Initiative, GIS data development for abandoned coal mine maps, long range IT planning).

Geologist Supervisor (Grade 13) Eastern Geology and Spatial Data Section Manager, Virginia Department of Mines, Minerals, and Energy (1996 - 2001). Responsible for Divisions GIS data development; direct supervisor for 7 staff, 4 working on GIS and Remote Sensing projects; developing metadata and spatial information strategy for Department; Leader DMME Information Technology Task Force, responsible for restructuring Department IT strategy from mainframe to a distributed network (writing DMME IT Plans, writing RFP's for DMME's "Work Flow for Electronic Permitting" (\$230,000) and "Regulatory Data Base Conversion for Division of Gas and Oil" (\$350,000) procurements).

Geologist Supervisor, Virginia Department of Mines, Minerals, and Energy, Division of Mineral Resources (1996 - 2001). Direct supervision of five staff members, two working on GIS projects and two working on OSM funded digital compilation of abandoned coal mine maps in SW Virginia and one working on karst mapping/ Quaternary Geology and environmental /engineering geology.

Associate Professor of Earth and Planetary Sciences; faculty associate in the McDonald Center for Earth and Planetary Remote Sensing, Washington University (1986 - 1993). Remote sensing (Landsat TM-based mapping of the Najd shear zone in Saudi Arabia; remote sensing study of faults in Madagascar, remote sensing interpretation of laboratory measurement of spectral signatures of fresh and weathered rock surfaces, geologic interpretation of synthetic aperture

radar imagery from Space Shuttle SIR-B and SIR-C data from Sudan, statistical analysis and inversion of remote sensing image data); geodynamics; structural geology; and finite element modeling.

Assistant Professor, Southern Methodist University (1979 - 1986). Structural geology, and geochronology; field work in New Mexico, Colorado, Canada and Oklahoma; funded and set up a Fission Track dating Laboratory; fission track dating to constrain uplift along Rio Grande Rift; experimental studies of fission track blocking temperatures; compaction and diagenesis of Sligo Formation Texas Gulf Coast; Sr and stable isotope study of Sligo Formation (in collaboration with ARCO Research Labs); study of relationship between porosity evolution and compaction in grainstones; study of compaction in the Smackover Formation using strain analysis techniques. Supervised 3 PhD dissertations and 4 MSc Theses.

Teaching Assistant; Instructor in Charge of Field Camp section, summers of 1973-77, University of British Columbia (1973 - 1979). Geologic mapping in Monashee Range of the Rocky Mtns; Rb/Sr and Pb/Pb Geochronology; structural geology of Big Ledge Lead-Zinc Prospect; experimental phase equilibrium studies.

Theses

Petrological evolution of the Ok Tedi Skarn deposit, Papua New Guinea

Dissertations

Structural evolution of the Thor Odin Gneiss Dome

Areas of Expertise

Areas of Expertise

Carbon management based on geologic CO₂ sequestration, development and management of large-scale pilot projects for carbon capture and long-term storage, and implementation of clean oil technologies

Conceiving, designing, implementing, and managing multidisciplinary geologic information management projects

Managing integrated grant/contract-based multidisciplinary research projects in a nonprofit organization

Modern geologic mapping, remote sensing, structural geology, knowledge management in the earth sciences, digital mapping/ enterprise GIS, and geochronology

Awards

Awards and Honorary Societies

Canadian Pacific Graduate Travel Fellowship

Commonwealth of Australia University Scholarship

DMME Outstanding Contribution Award

GSA Penrose Grant Outstanding Proposal

James Coates Graduate Scholarship

Killam Predoctoral Fellowship

UBC Geological Sciences Outstanding Teaching Assistant Award

University of British Columbia Graduate Fellowship

Service

External Committees Participation

Leader, Performance Measures Task Force, DMME, 0

Leader, Information Technology Task Force, DMME, 0

Leader, State Map Mapping Team, DMR, 0

Member, Virginia State Agency Technical Remote Sensing Data Needs Advisory Committee, George Mason University and Virginia Economic Development Partnership, 2001 - 2004

Member, Digital Geologic Mapping Committee, Data Information Exchange and Data Capture Work Groups, AASG, 1996 - 2004

Member, Technical Advisory Committee, Virginia GIS Network State Agency, 1996 - 2004

Member, Virginia Gap Analysis (Remote Sensing) Advisory Committee, Virginia Tech, 1996 - 2004

Technical Advisor, Virginia GIS Coordinator, Statewide purchase of SPOT imagery, 1996 - 2001

Teaching and Advising

Continuing Education Courses Taught

Digital Mapping Techniques: presented at Martha Washington College, Abingdon, Virginia,

Four 1-day short courses on Introduction to Geographic Information Systems: presented to Virginia Department of Transportation, Richmond, Virginia,

Thermodynamics and Phase Equilibrium: presented at Australian National University, Canberra, Australia,

Thermodynamics and Phase Equilibrium: presented at The University of Texas at Dallas, Dallas, Texas,

Using comprehensive planning to preserve industrial mineral and aggregate reserve: DMR Short Course for Regional Planners,

Presentations

Presentations

Analysis of Vertical Permeability and Its Influence on CO₂ EOR and Storage In A Carbonate Reservoir: presented to Society of Petroleum Engineers, presented at 2021 SPE Annual Technical Conference and Exhibition (ATCE), Dubai, United Arab Emirates, September 21-23, 2021.

Evaluating risks of CO₂ transportation: potential impacts of CO₂ on human health: poster presented at 11th Annual Carbon Capture, Utilization, and Sequestration Conference, Pittsburgh, Pennsylvania, May 2, 2012.

The nature of methane leakage from natural gas wells as an analogue for shallow CO₂ migration: does bubble transport and slug flow in fractures dominate?: presented at 11th Annual Carbon Capture, Utilization, and Sequestration Conference, Pittsburgh, Pennsylvania, May 1, 2012.

Introduction to the carbon landscape: research, funding, staffing, sustaining across cycles: presented at Bureau of Economic Geology Visiting Committee meeting, Austin, Texas, August 2, 2010.

Risks and benefits of geologic sequestration of carbon dioxide--how do the pieces fit together?: presented at Pacific Sections AAPG-SEPM-SEG Convention, 100th Anniversary of The Texas Bureau of Economic Geology Session, Ventura, California, May 5, 2009.

Risk assessment for future CO₂ sequestration projects based CO₂ enhanced oil recovery in the U.S: presented at the GHGT-9 (Green House Gas Technology) Conference, Washington, D.C.,

November 16-20, 2008.

Addressing public policy issues facing long term CO₂ storage in Texas: presented at Fifth Annual Conference on Carbon Capture & Sequestration, Alexandria, Virginia, May 8-11, 2006.

Numerical modeling of role of faults in understanding long-term CO₂ storage: the upscaling dilemma: presented at Fifth Annual Conference on Carbon Capture & Sequestration, Alexandria, Virginia, May 8-11, 2006.

Texas FutureGen: a win for the region: invited opening address presented at CO₂ Workshop, Midland, Texas, December 6, 2005.

The Gulf Coast Carbon Center: enabling development of a carbon sequestration industry in the Gulf Coast: presented to the Houston Geological Society, Houston, Texas, November 15, 2005.

Reliability in geoinformatics: theory and practical applications in digital geologic map compilation: presented at Geological Society of America Annual Meeting, Salt Lake City, Utah, October 16, 2005.

Getting more oil recovery and reducing global warming at the same time: a cross border win-win?: invited lecture presented at Cross Border Energy Forum, Santa Fe, New Mexico, October 13, 2005.

The Gulf Coast Carbon Center: exploring synergies between gasification and CO₂ sequestration: invited lecture presented at Gasification 2005, San Francisco, California, October 11, 2005.

The Gulf Coast Carbon Center: CO₂ sequestration research objectives: presented to Virginia Geologic Survey, Charlottesville, Virginia, September 22, 2005.

CO₂ EOR: new economic drivers and new strategies: luncheon speech presented at AAPG Eastern Section Annual Meeting, Morgantown, Virginia, September 19, 2005.

Elevation data sets for GIS in Virginia: presented at Virginia GIS Meeting, Roanoke, Virginia, 2000.

Absolute and relative accuracy in GIS datasets: presented at Virginia GIS Conference, 1999.

Geology and Reservoir Properties of the Residual Oil Zone (ROZ) of the San Andres Seminole Unit, West Texas: presented to AAPG, presented at SWS AAPG Conference, Houston, June 23, 2021-Present.

A remote sensing approach to estimating runoff from impervious surfaces: presented at Virginia Tech University, Blacksburg, Virginia,

Biodiversity in Virginia: the role of geology: presented to Ivy Creek Natural Foundation, Charlottesville, Virginia,

Creating geological databases for engineering and Quaternary Geology: presented to Virginia Department of Transportation Engineering Geology Group, Richmond, Virginia,

Digital databases, digital geologic maps, and highway planning: presented to Virginia Transportation Research Council, Charlottesville, Virginia,

Digital geologic mapping using GIS: presented to Virginia Tech Department of Geological Sciences Colloquium, Blacksburg, Virginia,

Educating regional planners on aggregate resources: presented at National Transportation Research Council Annual Meeting, Washington, D.C.,

Environmental/Quaternary geology and karst mapping: implications for highway planning: presented at Virginia Department of Transportation Environmental Review Bi-Annual Meeting, Richmond, Virginia,

Geologic history of Virginia: presented to Ivy Creek Natural Foundation, Charlottesville, Virginia,

GIS for mapping abandoned coal mines in Virginia: presented to National Research Council Committee on Impoundment Failures, Huntington, West Virginia,

Liability of government agencies for GIS data: presented at Digital Mapping Techniques Symposium, Pennsylvania

New approaches to creating digital geologic maps: presented to U.S. Geological Survey, geology division, Reston, Virginia,

The evolution of the early Earth: presented at the Piedmont Virginia College Annual Endowed Colloquium in the Sciences, Charlottesville, Virginia,

Activities of a Professional Nature

Professional Societies

Geological Society of America (Structural Geology Division, Coal Division, Hydrogeology Division)
