

Sara J. Elliott

Professional Summary

August 23, 2025

Business address: The University of Texas at Austin
Bureau of Economic Geology
10100 Burnet Rd., Bldg. 130
Austin, TX 78758
Telephone: (512) 471-2596
E-mail address: sara.elliott@beg.utexas.edu

Professional Preparation

Academic Background

MS Department of Geosciences, Pennsylvania State University, 2012

B.S. Department of Geological Sciences, University of Miami, May 2010

Professional Appointments

Research Scientist Associate III, Bureau of Economic Geology, The University of Texas at Austin (April 2018-Present)

Specializing in Scanning Electron Microscopy, especially SEM-Cathodoluminescence

Research Scientist Associate II, Bureau of Economic Geology, The University of Texas at Austin (April 2013-2018)

Specializing in Scanning Electron Microscopy, especially SEM-Cathodoluminescence

Graduate Research Assistant, Pennsylvania State University (January 2011-August 2012)

Teaching Assistant, Pennsylvania State University (August-December 2010)

"The Earth System and Global Change," general education course, Earth 002: 75 students.

Student Research Assistant, Marine Geology and Geophysics Department, Rosenstiel School of Marine and Atmospheric Science, University of Miami (November 2008-May 2010)

Resulted in senior thesis: "Sediment and faunal analysis of the Zanclean flood mixed siliciclastic-carbonate Gurabo Formation, Central Dominican Republic"

Geological sciences tutor, University of Miami Athletics Department (September 2009-January 2010)

Assisted student athletes with comprehension of basic scientific principles, with emphasis on geology and environmental science.

Petrophysics lab assistant, Rosenstiel School of Marine and Atmospheric Science, University of Miami (January-May 2009)

Prepared limestone core samples for porosity and geochemical analyses pertaining to groundwater flow research.

Theses

Subfossil leaves reveal a new upland hardwood component of the pre-European Piedmont landscape, Lancaster County, Pennsylvania. Masters Thesis, Pennsylvania State University, 2012.

Sediment and faunal analysis of the Zanclean flood mixed siliciclastic-carbonate Gurabo Formation, Central Dominican Republic. Senior Thesis, Marine Geology and Geophysics Department, Rosenstiel School of Marine and Atmospheric Science, University of Miami, 2010.

Areas of Expertise

Areas of Expertise

Cathodoluminescence

Paleoecology

Petrography

Photoshop/Illustrator

SEM

SEM-Based Point Counting

Structural Diagenesis

Awards

Awards and Honorary Societies

AAPG Top 10 Poster Presentation for "Bedding-Parallel Fractures in Shales: Characterization, Prediction, and Importance," AAPG Annual Convention and Exhibition, Denver, Colorado, June 2015

Early Career Development Publication Award, Bureau of Economic Geology, The University of Texas at Austin, 2015

Geological Society of America Student Research Grant, 2011-2012

P.D. Krynine Research Scholarship, Department of Geosciences, Pennsylvania State University, 2011-2012

Bowman-Foster-Ashe Academic Tuition Scholarship, University of Miami, 2006-2010

Florida Bright Futures Academic Scholars Award, 2006-2010

Service

Outreach Activities

Explore UT "Find Gold" activity: Volunteered to teach children about density by panning for gold, The University of Texas at Austin, 2018.

Judge: 5th Annual JSG Student Research Symposium, The University of Texas at Austin, February 6, 2016.

Presentations

Invited Presentations

Core Fracture Description of the Hydraulic Fracture Test Site (HFTS1) Slant Core, Reagan Co., Midland Basin, Texas: presented to The University of Texas at Austin, Hildebrand Department of Petroleum and Geosystems Engineering, presented at Graduate Student Seminar Series, September 9, 2019.

Core Fracture Description of the Hydraulic Fracture Test Site (HFTS1) Slant Core, Reagan Co., Midland Basin, Texas: presented to Texas A&M Petroleum Engineering Graduate Student Seminar Series, presented at Texas A&M University, College Station, September 3, 2019.

Cathodoluminescence applications in geosciences using a Zeiss Sigma field emission SEM: presented to Texas Society for Microscopy, presented at Annual Meeting, Austin, Texas, February 2015.

Presentations

Fracture Description of the HFTS-2 Slant Core, Delaware Basin, West Texas: presented at URTeC, Houston, Tex., July 2021.

Deformation bands as fluid pathways in outcrops of Lajas Formation tight-gas sandstone, Neuquén Basin, Argentina: presented to Fracture Research and Application Consortium (FRAC), presented at Annual Sponsors' Meeting, Austin, Tex., November 2019.

SEM-based compositional and microtextural analysis of deformation bands--examples from the Lajas Fm. Tight Gas Sandstone: presented to Fracture Research and Application Consortium (FRAC), presented at Annual Sponsors' Meeting, Austin, Tex., November 2019.

Structural-diagenetic analysis of cataclastic zones in glauconite sandstone, Vienna Basin, Austria: presented to Fracture Research and Application Consortium (FRAC), presented at Annual Sponsors' Meeting, Austin, Tex., November 2019.

HFTS 1 EOR: 5TW Core Proppant Results: presented to HFTS 1 Consortium, presented at Core Laboratories, Houston, Tex., July 18, 2019.

Update on Fracture Description Work for the HFTS1 EOR Project: presented to HFTS1 Consortium by WebEx, January 23, 2019.

Analysis and Distribution of Proppant Recovered from Fracture Faces in the HFTS Slant Core Drilled through a Stimulated Reservoir: presented to Fracture Research and Application Consortium Annual Sponsors' Meeting, Casper, Wyo., September 17-19, 2018.

Slip behavior of a subduction zone: preliminary inferences from quartz and calcite filled veins (hydrofractures) in an exhumed accretionary wedge, Shimanto belt, Japan: presented to Fracture Research and Application Consortium, presented at Annual Sponsors' Meeting, Austin, Texas, October 2017.

What controls quartz cementation in cataclastic deformation bands and other faulted structures?: presented to Fracture Research and Application Consortium, presented at Annual Sponsors' Meeting, Lost Pines, Texas, September 2016.

Quantifying the texture, composition, and coupled chemical-mechanical diagenesis of deformation bands within sandstone reservoir outcrop analogs of assorted detrital compositions, Southwestern USA: presented to Fracture Research and Application Consortium, presented at Annual Sponsors' Meeting, Austin, Texas, September 2015.

Core analysis of shales: beef vs. bivalves: presented to Fracture Research and Application Consortium, presented at Annual Sponsors' Meeting, Balcones Springs, Texas, September 2014.

Characterizing a pre-Colonial Piedmont riparian forest using sub-fossil leaves: West Branch Little Conestoga Creek, Southeastern Pennsylvania: presented to Penn State Department of Geosciences, presented at Annual Graduate Colloquium, University Park, Pennsylvania, March 2012.

Activities of a Professional Nature

Professional Societies

American Geophysical Union, 2013 - Present

Geological Society of America, 2010 - Present

Nature Conservancy, 2012 - Present

SEPM-AAPG (2017-present)

Activities of a Professional Nature

Hosted SEM workshop for graduate students in Digital Rock Physics class (Petroleum & Geosystems Engineering Department - Dr. Masa Prodanovic) (February 2018)

Funding

Research Support

Co-PI: GTI Hydraulic Fracture Test Site (HFTS) EOR Project (2018-2019; \$99K).

Co-PI: GTI/NETL Hydraulic Fracture Test Site (HFTS), NETL (October 15, 2015-December 31, 2016; \$205K).

Researcher: Early Career Publication Support Grant, Bureau of Economic Geology, The University of Texas at Austin (September 2015-August 2016; \$4000).

Co-PI: Structural Diagenesis Fellowship, GDL Foundation (2016, \$2000.00).
