

# Robert M. Reed

## Professional Summary

April 30, 2025

Business address: The University of Texas at Austin  
Bureau of Economic Geology  
10100 Burnet Rd., Bldg. 130  
Austin, TX 78758  
Telephone: (512) 471-0356  
E-mail address: rob.reed@beg.utexas.edu

### Professional Preparation

#### Academic Background

Ph.D. Geology, The University of Texas at Austin, August 1999

M.S. Geology, University of Massachusetts at Amherst, February 1993

B.S. Geology, The University of Texas at Austin, December 1985

#### Professional Appointments

Research Scientist Associate V, Bureau of Economic Geology, Jackson School of Geosciences, The University of Texas at Austin (September 2018-Present)

Working with a variety of projects involving diagenesis, pore systems, and other rock characteristics, primarily at the microscopic level. Techniques used include cathodoluminescence, energy dispersive spectroscopy, and various other electron microscope analytical methods. Principal investigator of the scanning electron microscope laboratory.

Research Scientist Associate IV, Bureau of Economic Geology (September 2007-August 2018)

Working with a variety of projects involving diagenesis, fractures, porosity, and other rock features, primarily at the microscopic level. Techniques used include cathodoluminescence, electron backscatter diffraction, energy dispersive spectroscopy, and various other electron microscope analytical methods

Research Scientist Associate III, Bureau of Economic Geology, The University of Texas at Austin (April 2003 - September 2007). Management of cathodoluminescence image acquisition and processing for ongoing studies by the Fracture Research and Application Consortium (FRAC IA). Study goals include using microfractures to predict the behavior of macrofractures, understanding the interaction between microfracturing and diagenesis, and developing new methodology for microfracture analysis studies.

Postdoctoral Fellow, Bureau of Economic Geology, The University of Texas at Austin (April 2000 - March 2003). A number of studies on fractured sedimentary rocks that include using microfractures to predict the behavior of macrofractures, the interaction between microfracturing and diagenesis, and the evolution of macrofracture morphology.

Research Scientist Associate I, Bureau of Economic Geology, The University of Texas at Austin (March 2000 - March 2000). Assisted with studies in using microfractures to predict properties of fractured reservoirs.

Research Scientist Associate I, Center for Petroleum and Geosystems Engineering, The University of Texas at Austin (October 1999 - February 2000). Assist with studies in using microfractures to predict properties of fractured reservoirs.

Research Scientist Associate I, Geology Foundation, The University of Texas at Austin (October 1999 - November 1999). Development of illustrations for regional geologic study.

Research Scientist Associate I, Center for Petroleum and Geosystems Engineering, The University of Texas at Austin (May 1999 - September 1999). Assisted with studies in using microfractures to predict properties of fractured reservoirs.

Research Scientist Associate I, Bureau of Economic Geology, The University of Texas at Austin (February 1999 - April 1999). Assisted with studies in using microfractures to predict properties of fractured reservoirs.

Research Scientist Associate I, Bureau of Economic Geology, The University of Texas at Austin (September 1998 - January 1999). Assisted with studies in using microfractures to predict properties of fractured reservoirs.

Graduate Research Assistant, Bureau of Economic Geology, The University of Texas at Austin (September 1997 - August 1998). Assisted with projects involving the use of cathodoluminescence in the microfracture analysis of sandstones.

Graduate Research Assistant, Department of Geological Sciences, The University of Texas at Austin (January 1997 - August 1997). Assisted with projects involving the use of cathodoluminescence in the microfracture analysis of sandstones.

Teaching Assistant, Department of Geological Sciences, The University of Texas at Austin (September 1990 - July 1997). Teaching responsibilities included assisting with a number of classes including upper division and graduate courses.

Graduate Research Assistant, Bureau of Economic Geology, The University of Texas at Austin (September 1995 - December 1996). Assisted with projects involving the use of cathodoluminescence in the microfracture analysis of sandstones.

Technical Assistant, Howard Laboratories, Amherst, MA (August 1989 - July 1990). Responsibilities included a wide range of technical and administrative functions for a company providing environmental services.

Teaching Assistant, Department of Geology and Geography, University of Massachusetts at Amherst (August 1988 - May 1989). Teaching responsibilities included assisting with courses in Introductory Geology and Oceanography.

## Theses

Microfabric analysis of the northern part of the Pelham Dome, central Massachusetts: Amherst, MA, University of Massachusetts, M.S. thesis, 190 pages, 1993

## Dissertations

Emplacement and deformation of late syn-orogenic, Grenville-age granites in the Llano Uplift, Central Texas: Austin, TX, University of Texas, Ph.D. dissertation, 272 pages, 1999

## Areas of Expertise

### Areas of Expertise

Microstructural analysis of sedimentary rocks  
Pores and pore networks in mudrocks  
Scanning electron microscopy studies

## Publications

### Peer Reviewed Journal Articles

Ko, L. T., Loucks, R. G., Rowe, H., Reed, R. M., Sivil, J. E., and Adriaens, R., 2025, Mudstone diagenesis in the Cenomanian-Turonian Eagle Ford Group in the San Marcos Arch area. Part I: chemostratigraphy, early diagenesis, bitumen expulsion and migration pathways: Marine and Petroleum Geology, v. 172, no. 107162, 41 p., <http://doi.org/10.1016/j.marpetgeo.2024.107162>.

Loucks, R. G., Reed, R. M., and Periwal, P., 2024, Estimating water depths of Upper Cretaceous Pilot Knob volcanic-related strata: the McKown and Pflugerville Formations and pyroclastic ash at the Lower Falls section, McKinney Falls State Park, Austin, Texas: *GCAGS Journal*, v. 13, p. 53-74, <http://doi.org/10.62371/DSUE4387>.

## Awards

### Awards and Honorary Societies

A. I. Levorsen Award as co-author of Best Paper presented at Gulf Coast Section, GCSSEPM/GCAGS Annual Meeting, "Preliminary Classification of Matrix Pores in Mudrocks"

2024 GCAGS: 1st Place Thomas A. Philpott Excellence of Oral Presentation authored by Robert G. Loucks, Robert M. Reed, and Priyanka Periwal. Interpretation of the Upper Cretaceous Pilot Knob Volcano Associated McKown Formation at McKinney Falls State Park, Texas: Shallow-Water High-Energy Beach System or Deeper-Water Gravity-Flow Deposits?, 2024

President's Award for Outstanding Paper, GCAGS Journal, Volume 12, 2024

President's Award for Outstanding Paper in the GCAGS Journal: "Scanning-electron-microscope petrographic evidence for distinguishing organic-matter pores associated with depositional organic matter versus migrated organic matter in mudrock" (co-author Robert Loucks), 2014

Third Place Gordon I. Atwater Award for poster "Pore Morphology and Distribution in the Cretaceous Eagle Ford Shale, South Texas, USA," 2012 GCAGS Convention, Austin, Texas, 2012

President's Certificate for Excellence in Presentation (Best Oral Presentation), AAPG Energy Minerals Division (EMD), 2011

Grover E. Murray Best Published Paper Award as co-author of Third-Place Paper published in GCAGS Transactions, "Preliminary Classification of Matrix Pores in Mudrocks", 2010

EMD Best Poster Award (with Robert Loucks Annual Meeting of the American Association of Petroleum Geologists, 2007

President's Certificate for Excellence, Energy Minerals Division, American Association of Petroleum Geologists, 2007

President's Certificate for Excellence, Energy Minerals Division, American Association of Petroleum Geologists, for poster titled "Synkinematic Carbonate Fracture Sealing Cements in Opening-Mode Fractures: Characteristics and Models", 2006

Outstanding Student Research Award, Geological Society of America, 1994

Graduate Student Petrography Award, Department of Geological Sciences, The University of Texas, 1992

National Merit Scholarship, The University of Texas at Austin, 1981 - 1985

## Teaching and Advising

### University Courses Taught

Pores in the Mississippian Barnett Shale of the northern Fort Worth Basin: primary, secondary, and possible fracture-related examples: Bureau of Economic Geology research seminar, The University of Texas at Austin, Austin, Texas, November 17, 2006.

Introduction to the Bureau's scanning electron microscope: Bureau of Economic Geology Technical Seminar, Austin, Texas, August 2003.

### Student Committee Participation

Member, B.S. Thesis Committee, Elizabeth R. Hatley, EBSD Analysis of Garnet Orientations and Garnet-Pair Misorientations in Metamorphic Rocks: The University of Texas at Austin, 2007

Member, B.S. with Honors Thesis Committee, Wesley D. Crawford, Jr., A Comparative Study of Eclogitic Remnants from the Llano Uplift, Central Texas: The University of Texas at Austin, 2005

## Presentations

### Invited Presentations

The Woodford Formation and distal Mississippi Lime within the Midland Basin: presented to West Texas Geological Society, presented at West Texas Geological Society Fall Symposium, Midland, Tex., September 19-21, 2023.

How Depositional Environment, Diagenesis, and Thermal Maturity Affect the Evolution and Significance of Organic and Mineral Pore Systems in Unconventional Oil and Gas Reservoirs: Current Understanding and Future Research: presented at AAPG Hedberg Conference, Houston, Texas, March 4-May 6, 2019.

Volcanic Activated Mass-Wasting Complexes in the Upper Cretaceous Upper Austin Chalk Strata in South and Central Texas, U.S.A.: presented to Austin Geological Society, Austin, Texas, March 7, 2022-Present.

### Presentations

Facies Characterization of Wolfcamp D along a transect from the Eastern Shelf to the Midland Basin: presented to Southwest Section - AAPG, presented at SWS-AAPG Annual Convention, Wichita Falls, Tex., May 9, 2023.

Alteration of Volcanic Grains to Glauconite in the Upper Cretaceous Austin Chalk Formation in

the Balcones Igneous Province, South and Central Texas; Implication for Depositional History: presented to GCAGS, presented at GCAGS Annual Meeting, Houston, Tex., April 25, 2023.

Facies and Associated Reservoir Quality of the 3rd Bone Spring Siliciclastics & Wolfcamp A and B, Pecos Co., southern Delaware Basin, west Texas: presented to MSRL consortium members, presented at MSRL Annual Meeting, Houston, Tex., April 11-12, 2022.

Pore Systems and Diagenesis of the Basinal Leonardian 2nd and 3rd Bone Spring Carbonates, Delaware Basin, west Texas: presented to MSRL consortium members, presented at MSRL Annual Meeting, Houston, Tex., April 11-12, 2022.

Characteristics of the Leonardian Second Bone Spring Sand and Third Bone Spring Lime, Reeves County, southern Delaware Basin, Texas: presented to MSRL members, presented at 2021 MSRL Core Workshop, Houston Core Research Center, December 7, 2021.

Characteristics of the Leonardian Third Bone Spring Lime, Reeves County, southern Delaware Basin, Texas: presented to MSRL members, presented at 2021 MSRL Core Workshop, Houston Core Research Center, December 7, 2021.

Integrating lithofacies and chemofacies characterizations for the Permian Basin Wolfcamp XY and Third Bone Spring Formation, Delaware Basin, Texas: presented to American Association of Petroleum Geologists (AAPG-ACE), Denver, Colorado, October 2021.

Integrating lithofacies with geochemical and petrophysical properties of the Tithonian-Valanginian Vaca Muerta Fm., central Neuquén Basin, Argentina: presented to AAPG, presented at International Meeting for Applied Geoscience & Energy (IMAGE), Online oral presentation, September 27-29, 2021.

Water-Oil Displacement in Shale: New Insights from a Comparative Study Integrating Imbibition Tests and Multiscale Imaging: presented to URTEC, presented at URTEC 2021, Virtual, July 26-28, 2021.

Water-Oil Displacement, Wettability, and Improved Oil Recovery in Shale: presented to MSRL members, presented at Mudrock Systems Research Laboratory (MSRL) Annual Meeting, online conference, April 6-8, 2021.

Pore Connectivity, Porosity, Permeability, and Influence of TOC and Mineralogy in Shale: presented to MSRL members, presented at Mudrock Systems Research Laboratory Annual Meeting, Austin, TX, April 8-10, 2020.

Invited talk: Distinguishing organic matter pores associated with in-place organic matter versus migrated organic matter in mudrocks: EMD/AAPG Unconventional Research Group Meeting, Houston, Texas, April 8, 2014.

Nano- and micro-pores in the Cretaceous Eagle Ford Shale, South Texas, USA: presented at GSA Annual Meeting, Denver, Colorado, October 3-November 3, 2011.

Pore system multiscale heterogeneity in organic-bearing mudrocks: presented at 45th South-Central Section GSA Annual Meeting, New Orleans, Louisiana, March 27-29, 2011.

A close look at the Barnett pore network and questions that need answering: invited talk presented at AAPG Unconventional Gas Research Committee Meeting, San Antonio, Texas, April 2008.

Morphology, distribution, and genesis of nanometer-scale pores in the Mississippian Barnett Shale: presented at the AAPG Annual Convention, San Antonio, Texas, April 2008.

Integrated SEM-based cathodoluminescence imaging and fluid inclusion analysis of crack-seal quartz cement in sandstone macrofractures: presented at Geological Society of America Annual Meeting, Salt Lake City, Utah, October 17, 2005.

Relict grain-cement textures in metasandstones revealed using SEM-based cathodoluminescence imaging: presented at Geological Society of America Annual Meeting,

Denver, Colorado, November 10, 2004.

Use of SEM-CL in identifying cryptic metaclastic rocks: presented to Department of Geological Sciences, The University of Texas at Austin, Austin, Texas, April 14, 2004.

Microfractures, macrofractures, and fracture-cement relations in sandstones: examples from Oklahoma and Texas: presented to Tulsa Geological Society, Tulsa, Oklahoma, February 24, 2004.

Some uses of SEM-based cathodoluminescence imaging in sandstone petrology: presented to Graduate Sandstone Petrology class, University of Tulsa, Tulsa, Oklahoma, February 24, 2004.

SEM-based cathodoluminescence imaging in sandstone provenance analysis: quartz and feldspar grains, zircons, and siliceous rock fragments: presented at the Geological Society of America Annual Meeting, Seattle, Washington, November 2003.

Fracture characterization based on microfracture surrogates, Pottsville Sandstone, Black Warrior Basin, Alabama: presented at Gulf Coast Association of Geological Societies Annual Convention, Austin, Texas, October 31, 2002.

Avoiding imaging problems associated with carbonate minerals on SEM-based cathodoluminescence systems: presented to Department of Geological Sciences, The University of Texas at Austin, Austin, Texas, September 16, 2002.

Low-pressure deformation and metamorphism of the Proterozoic Llano Uplift, Central Texas: presented at South-Central Section Meeting, Geological Society of America, Alpine, Texas, April 11, 2002.

A technique for avoiding imaging problems associated with carbonate minerals on SEM-based cathodoluminescence systems: presented at Northeast Section Meeting, Geological Society of America, Springfield, Massachusetts, March 25, 2002.

Interaction between diagenetic reactions and mechanics of opening-mode fractures in sandstones: the message from crack-seal texture: presented at Northeast Section Meeting, Geological Society of America, Springfield, Massachusetts, March 25, 2002.

Maintaining a geoscience website: pitfalls, problems, and potential: invited talk presented at Geological Society of America, Cordilleran Section Meeting, Berkeley, California, 1999.
