3rd International Workshop

3-4 May 2018
Research Council of Norway
Oslo, Norway
The global offshore continental shelves represent the largest near-term storage for Gigaton-scale CCS.
“There is a growing wealth of research, development and practical experiences that are relevant to CO$_2$ storage offshore, but this expertise is familiar only to a few specific countries around the world. However there is also significant global potential for offshore CO$_2$ storage, and countries who are not yet active but may become interested in offshore storage, would benefit from knowledge sharing from these existing experiences and expertise. Such international knowledge sharing would be facilitated by international workshops and by international collaborative projects.”

(CSLF Ministerial Nov 2015: CSLF-T-2015-06)
Organised by the Bureau of Economic Geology (BEG) at The University of Texas at Austin in collaboration with the South African Centre for CCS at SANEDI, IEAGHG and with support from CSLF and UNFCCC’s CTCN

- To facilitate sharing of knowledge and experiences among those who are doing offshore storage and those who may be interested
- 19-21 April 2016, at the BEG, University of Texas, Austin
- 13 countries attended (7 developing countries)
- Conclusions and Recommendations published in IEAGHG Report 2016-TR2
Organised by the Bureau of Economic Geology (BEG) in collaboration with IEAGHG (Chair of the International Steering Committee), the South African Centre for CCS at SANEDI and with support from CSLF

To address and build on the recommendations and topics raised at the first workshop to take offshore storage forward. Continuing theme of ‘how to do’.

19-20 June 2017, at Lamar University, Beaumont, Texas

50 attendees, 9 countries

Conclusions and Recommendations published in IEAGHG Report 2017-TR12
3rd International Workshop

3-4 May 2018
Research Council of Norway
Oslo, Norway
3rd Workshop

- **Aims.** To address and build on the recommendations and topics raised at the first and second workshops to update on and take forward offshore storage

- **Objectives:** To cover the following topics:
  - Value chains for offshore
  - Infrastructure
  - Monitoring
  - Storage resource assessment
  - Project updates
  - Standards and regulatory frameworks
  - Brainstorming towards an international collaborative project
3rd International Workshop
3-4 May 2018
Research Council of Norway
Oslo, Norway
Conclusions
Recommendations
Steering Committee

Tim Dixon, IEAGHG (Chair)
Katherine Romanak, BEG (Co-chair)
Lars Ingolf Eide, Research Council of Norway (Host)
Åse Slagtern, Research Council of Norway (Host)
Susan Hovorka, BEG
Tip Meckel, BEG
Noel Kamrajh, SANEDI

Di Zhou, China Academy of Sciences
Filip Neele, TNO
Paulo Negrais Seabra- Independent Consultant (formerly Petrobras)
Ryozo Tanaka, RITE
Owain Tucker, Shell
Philip Ringrose, Statoil
Michael Carpenter, Gassnova
Mark Ackiewicz / Traci Rodosta, US DOE
3rd International Workshop
3-4 May 2018
Research Council of Norway
Oslo, Norway
