The following are the activities conducted in the month of November.

- The initial funds transfer from the University of Houston’s Office of Contracts and Grants to ISSER was completed.
- The Resource Center worked on the petroleum sector reform study commissioned by the Energy Ministry. UH IELE provided some background information to assist the project.
- The Resource Center initiated work on the Natural Gas Primer with the initial provision of materials from UH IELE.
- UH IELE developed its request for a no-cost extension to compensate for delays experienced in the beginning of the contract period and during the funds transfer process.

Next steps

Actions expected in the next couple of months include:

- Completion of the Natural Gas Primer.
- Preparations for the Educational Forum on Natural Gas (which will be held upon completion of the Natural Gas Primer)
