The following are the activities conducted in the month of October.

- The University of Houston’s Office of Contracts and Grants and ISSER signed the sub-agreement to initiate fund transfers.
- The Resource Center for Energy Economics and Regulation at ISSER started work on the Natural Gas Primer with the initial provision of materials from UH IELE.

Next steps

Actions expected in the next few months include:

- Completion of the Natural Gas Primer.
- Preparations for the Educational Forum on Natural Gas (which will be held upon completion of the Natural Gas Primer)
- Preparations for the Educational Forum on Electricity (which will be held upon completion of the Guide to Electric Power in Ghana).
