Dr. Scott Tinker, State Geologist of Texas and Director of the [Bureau of Economic Geology](#) at the [The University of Texas at Austin](#), joined PA [Senator Gene Yaw](#) last week to discuss energy with other PA legislators.

"We're really talking about this confluence of energy, the environment, and the economy," Dr. Tinker said. "We've got to bring these things together to address them all." He continued, "Energy underpins the economy - it allows the economy to grow - and the economy allows us to invest in the environment."

"The emerging and developing economies need [energy] cheap," Tinker said.
