WASHINGTON: NATIONAL AERONAUTICS AND SPACE ADMINISTRATION has issued contract notice for ' ICESat-2 Airborne Lidar Survey'

Solicitation No:80GSFC22R0046

Notice Type:Presolicitation (Updated)

Posted Date: May 04, 2022

Response Date:May 19, 2022 03:00 pm EDT

Description:NASA/Goddard Space Flight Center (GSFC) has a requirement for support to plan and execute a mission to collect airborne lidar and imagery data in July 2022 in support of the ICESat-2 spaceborne lidar mission. This contract will support the deployment and integration of the Chiroptera lidar and imagery system, owned and operated by the University of Texas **Bureau of Economic Geology** on NASA ' s G-V aircraft from NASA ' s Johnson Space Center. This aircraft campaign will operate out of Thule Air Force base (Greenland) and will collect data over sea ice targets, with specific targets dictated by weather and safety considerations. The contract will support data collection and processing for up to 7 flights of up to 7 hours duration each (49 total hours of data collection). This contract will support all aspects of the integration and deployment of the instrument and instrument team to Thule in support of this campaign.

Set Aside: N/A

The NAICS code number for this requirement:541690
