A South Texas earthquake that shook Austin and San Antonio has people asking if a [magnitude earthquake](#) was recorded about 40 miles southeast of San Antonio. There were reports of feeling some shaking as far north as Round Rock.

Experts say oil and gas drilling and extraction is largely responsible for the growing number of earthquakes. Saturday's earthquake only caused slight movement in Austin and San Antonio. Those much closer to the earthquake epicenter and there were reports of windows rattling and chairs shaking.

"It shook my recliner. The chandelier was swinging. Facebook in our area, I me

The earthquake epicenter was in nearby Falls City where experts say there has been no other earthquakes in this month.

"If we get a small one and it is just a standalone, and they are weeks apart, we don't expect to see them anymore. We are kind of used to that," said Casarez.
