

CERAWeek: 'Mythical' Renewables Will NOT Solve the Climate Crisis

ALTERNATIVE ENERGY | INDUSTRYWIDE ISSUES

March 26, 2024

According to Scott Tinker, CEO of Tinker Energy Associates and director emeritus of the Texas Bureau of Economic Geology, lifting billions of people out of energy poverty while reducing emissions **is** possible. But only if we ask the right questions. Tinker spoke at CERAWeek last week in Houston. He also had some blunt words about renewables, calling the very notion of *renewable* energy "mythical" and not anchored in reality. He also said: "Natural gas will be here for a very long time. And there's quite a bit of it."
