

Beverly Blakeney. DeJarnett

Professional Summary

May 1, 2025

Business address: The University of Texas at Austin
Bureau of Economic Geology
10100 Burnet Rd., Bldg. 130
Austin, TX 78758
Telephone: (713) 983-9420
E-mail address: bev.dejarnett@beg.utexas.edu

Professional Preparation

Academic Background

M.S. Geology, The Pennsylvania State University, 1986

B.S. with Honors Geology, The University of Wyoming, 1983

Ph.D. In Progress, Geology, The University of Alberta, Edmonton,

Professional Appointments

Present Position: Research Associate/Curator, The University of Texas at Austin, Bureau of Economic Geology, Houston Research Center (February 2003 - Present). Oversee BEG core collection and provide patrons with technical expertise on the collection. In charge of building HRC endowment through donations of rock material and cash.

Owner, BDB Consulting (1992 - Present). Provide customized sedimentologic, core, and petrographic analyses to clients; studies include Cretaceous tight gas sandstones, SW Wyoming; Jurassic Cotton Valley carbonates; Paleozoic carbonates, NE New Mexico; Pennsylvanian clastics, East Texas Basin; Pennsylvanian and Mississippian of western Kansas and SE Colorado.

Design and lead industry field trips on (1) practical applications of sequence stratigraphy to hydrocarbon exploration and production, Green River Basin, Wyoming; (2) sedimentology of Cretaceous reservoirs, Wyoming/Utah Overthrust Belt; and (3) sedimentology of Cretaceous reservoirs of south-central Wyoming.

Geologist, Union Pacific Resources Company (1986 - 1992). ROCK LAB (1990-1992)
Provided comprehensive core and petrographic analyses, as well as innovative technical advice to staff; generated diagenetic and sedimentologic study of the Almond Formation, Green River Basin, Wyoming; documented regional depositional setting, reservoir heterogeneity, and diagenetic history of the Frontier Formation, Green River Basin, Wyoming; documented regional depositional setting, reservoir heterogeneity, and diagenetic history of the Frontier Formation, Green River Basin, Wyoming; initiated core and petrographic analysis of shallow Austin Chalk lithofacies, Texas; documented importance of microscopic and macroscopic fractures in overpressured reservoirs of Green River Basin, Wyoming; mapped regional fracture patterns, described fractures in core and thin sections, and integrated results with production data; introduced low-cost petrographic technique that allowed quantification of the producibility of fractured reservoirs and tight gas reservoirs.

EXPLORATION/DEVELOPMENT DEPARTMENTS (1986-1990)

Developed 13 development prospects and documented complex reservoir heterogeneity through detailed sedimentological and diagenetic analysis of the Morrow Formation, Stateline Trend, Colorado and Kansas--work resulted in development drilling and modification of existing

plan of depletion; integrated log, core, petrographic, and geochemical analyses into regional depositional and sequence stratigraphic analysis of the Morrow Formation--work resulted in significant expansion of prospective area; recognized that an unconventional, but potentially highly productive, geologic trapping configuration existed in an area previously considered nonprospective by company; coordinated exploration team's efforts, which resulted in significant acreage acquisition program (Green River Basin, Wyoming); proposed and drilled several successful development wells, Frontier/Dakota Formations, Green River Basin, Wyoming.

Professional Registrations and Certificates

Texas Board of Professional Geoscientists, Geology, #6033

Continuing Education Courses Taken

Applied Ichnology: the Use of Trace Fossils in Sequence Stratigraphy, Exploration, and Production: University of Alberta (George Pemberton) and Simon Fraser University (James MacEachern), AAPG/SEPM Annual Meeting, Houston, Texas, April 2006

Giant Hydrocarbon Reservoirs of the World: from Rocks to Reservoir Characterization and Modeling: Chevron (Mitch Harris) and ExxonMobil (Jim Weber) Core Workshop, AAPG/SEPM Annual Meeting, Houston, Texas, April 2006

Surface Expression of Faults in the Houston Area: Houston Museum of Natural Science, Houston, Texas, January 2006

Mesozoic Lakes of the Colorado Plateau: Geological Society of America, Utah, October 2005

The Geology of Central Texas: DOSECC, Austin, Texas, June 2005

Areas of Expertise

Areas of Expertise

Reservoir characterization and delineation through integration of sedimentologic, petrographic, and core analyses

Tight gas sandstones and fractured reservoirs, as well as conventional siliciclastic and carbonate units

Awards

Awards and Honorary Societies

Phi Beta Kappa, 1983 - 2003

Phi Sigma Iota, 1983 - 2003

SEPM Excellence of Oral Presentation Award, AAPG/SEPM Annual Meeting, 1986

Mortar Board, 1983

S. H. Knight Scholarship for Outstanding Undergraduate in Geology, 1983

Service

External Committees Participation

Chair, Information Management Initiative, Bureau of Economic Geology, 2005 - present

Member, Outreach and Education Committee, DOSECC, 2004 - present

Member, Publications Task Force, Bureau of Economic Geology, 2004 - present

Chair, Gulf Coast Section, Poster Session, SEPM (Society for Sedimentary Geology), 2008

Member, Headquarters and Business Committee, SEPM (Society for Sedimentary Geology), 2005 - 2008

Vice-President, SEPM, Gulf Coast Section, 2006 - 2007

Member, Subcommittee, National Geological and Geophysical Data Preservation Federal Advisory Committee, 2006

Organizer, Annual Meeting, Austin, Texas, DOSECC, 2005

Organizer, Grand Opening, Houston Research Center, 2004

Organizer, Workshop on "Curation of Terrestrial Cores, Samples, and Collections", National Science Foundation, 2004

Member, Awards Committee, SEPM (Society for Sedimentary Geology), 2001 - 2004

Outreach Activities

Blue Lagoon Quarry (Frio/Vicksburg sands): presented as co-leader of field trip for SE Texas (Region VI) Science Teachers, Huntsville, Texas, May 13, 2006.

Rocks don't lie: the importance of rocks in the petroleum industry: presented at CAST (Conference for the Advancement of Science Teaching, Houston, Texas, October 2005).

Teaching and Advising

Continuing Education Courses Taught

Siliciclastic lithofacies in core: presented to Halliburton, Houston, Texas, March 2005.

Examples of siliciclastic and carbonate lithofacies in core: tying the cores to imaging logs: short course/core workshop presented to Halliburton at Houston Research Center, Houston, Texas, December 2004.

Seminar on deep-water lithofacies in core, Eocene Wilcox Formation, Lavaca County, Texas: presented to oil company representatives at the Houston Research Center, Houston, Texas, November 2004.

Field Trips Leadership

Co-Leader, Stratigraphy of continental clastic systems: presented to Nautilus, Wyoming, Utah, October 2007.

Co-Leader, Predicting siliciclastic reservoirs using applied sequence stratigraphy: understanding the fundamental drivers of basin fill architecture: presented to American Association of Petroleum Geologists, Wyoming, Utah, June 2007.

Co-Leader, Stratigraphy of continental clastic systems: presented to Nautilus, Wyoming, Utah, June 2007.

Co-Leader, Stratigraphy of continental clastic systems: presented to Nautilus, Wyoming, Utah, October 2006.

Co-Leader, Predicting siliciclastic reservoirs using applied sequence stratigraphy: understanding the fundamental drivers of basin fill architecture: American Association of Petroleum Geologists, Wyoming, Utah, June 2006.

Co-Leader, Stratigraphy of continental clastic systems: presented to Nautilus, Wyoming, Utah, June 2006.

Co-Leader, Practical applications of sequence stratigraphy applied to siliciclastic depositional systems: presented to oil company representatives, Wyoming, Utah, May 2006.

Co-Leader, Practical applications of sequence stratigraphy applied to siliciclastic depositional systems: oil company representatives, Wyoming, Utah, September 2005.

Leader, Sequence stratigraphy of continental clastic deposits: week-long field trip presented to various oil-company representatives, Houston, Texas, October 2004.

Leader, Field trip through Houston Research Center: for 50 kindergarten through 5th grade students, Conroe Baptist Church Science Camp, Houston, Texas, June 2004.

Leader, Field trip through Houston Research Center: for elementary students from local Catholic school, Houston, Texas, May 2004.

Co-Leader, Rocks don't lie--the importance of cores and samples in the petroleum industry: Houston Geological Society, Houston, Texas, October 2003.

Presentations

Presentations

Rocks and fossils: discovering geology: presented to more than 200 elementary school children--several presentations per year, The Woodlands and Houston, Texas, February 2008.

Rocks and fossils: discovering geology: presented to more than 200 elementary school children--several presentations per year, The Woodlands and Houston, Texas, February 2007.

Rocks and fossils: discovering geology: presented to more than 200 elementary school children--several presentations per year, The Woodlands and Houston, Texas, February 2006.

BEG, UT Austin, core and sample repositories: presented at Geological Society of America Annual Meeting, Salt Lake City, Utah, October 2005.

Bureau of Economic Geology, The University of Texas at Austin, sample and log repositories: presented to Houston Gem and Mineral Society, Houston, Texas, October 2005.

Rocks and fossils: discovering geology: presented to more than 200 elementary school children--several presentations per year, The Woodlands and Houston, Texas, February 2005.

Bureau of Economic Geology, The University of Texas at Austin, core and sample repositories: invited talk presented at 5th International Meeting, National Geoscience Data Repositories, USGS, Reston, Virginia, September 2004.

Bureau of Economic Geology, The University of Texas at Austin, core and sample repositories: presented at DOSECC Annual Meeting, Rutgers University, Rutgers, New Jersey, June 2004.

Field trip to HRC: Conroe Baptists Church Science Camp, Houston, Texas, June 2004.

Field trip to HRC: St. Mary's School, Houston, Texas, May 2004.

The Houston Research Center-its mission and history: presented during National Science Foundation Workshop on "Curation of Terrestrial Cores, Samples, and Collections", Houston, Texas, May 2004.

Core and cuttings: an extraordinary resource: presented at the American Association of Petroleum Geologists Annual Meeting, Dallas, Texas, April 2004.

Rocks and fossils: discovering geology: presented to more than 200 elementary school children--several presentations per year, The Woodlands and Houston, Texas, February 2004.

Rocks and fossils: discovering geology: presented to more than 200 elementary school children--several presentations per year, The Woodlands and Houston, Texas, February 2004.

The Houston Research Center rocks!--how holding a rock in your hand can change your life: invited talk presented at the Association of Women Geoscientists Lone Star Chapter Monthly Lunch Meeting, Houston, Texas, January 2004.

Activities of a Professional Nature

Professional Societies

American Association of Petroleum Geologists

Gulf Coast Section of SEPM

Houston Geological Society
Rocky Mountain Association of Geologists
Rocky Mountain Section of SEPM
SEPM (Society for Sedimentary Geology)

Activities of a Professional Nature

Coordinated all logistics for HRC Grand Opening, June 2004
Gave presentations/tours at Houston Research Center Grand Opening, June 2004
Organized and coordinated logistics for DOSECC's Annual Scientific Meeting held in Austin, Texas, June 2005
Organized and coordinated logistics for NSF-sponsored workshop at HRC on Curation of Terrestrial Cores, Samples, and Collections, June 2004
