

Julia F W. Gale

Professional Summary

August 9, 2024

Business address: The University of Texas at Austin
Bureau of Economic Geology
10100 Burnet Rd., Bldg. 130
Austin, TX 78758
Telephone: (512) 232-7957
E-mail address: julia.gale@beg.utexas.edu

Professional Preparation

Academic Background

Ph.D. Geology, The University of Exeter, 1987

B.Sc. Honors Geology, Imperial College, London, 1982

Professional Appointments

Research Professor, Bureau of Economic Geology, Jackson School of Geosciences, The University of Texas at Austin (December 2023-Present)

Senior Research Scientist, Bureau of Economic Geology, The University of Texas at Austin (September 2016-Present)

Development of techniques for characterizing fracture architecture and attributes, with particular emphasis on fracture systems in shale and carbonate hydrocarbon reservoirs.

Research Scientist, Bureau of Economic Geology, The University of Texas at Austin (September 2008-August 2016)

Development of techniques for characterizing fracture architecture, with particular emphasis on fracture systems in shale and carbonate hydrocarbon reservoirs

Research Associate, Bureau of Economic Geology, The University of Texas at Austin (September 2000 - August 2008). Development of techniques for characterizing fracture architecture, with particular emphasis on fracture systems in carbonate and shale hydrocarbon reservoirs.

Research Associate, Department of Geological Sciences, The University of Texas at Austin (September 1998 - August 2000). Development of techniques for characterizing fracture architecture, with particular emphasis on fracture systems in carbonate hydrocarbon reservoirs.

Senior Lecturer, Division of Earth Sciences, University of Derby, UK (October 1986 - September 1998). Teaching of Undergraduate and Graduate courses in structural geology, tectonics, engineering geology and resource development. Supervision of PhD students.

Research Assistant, University of Exeter, UK / Greenland Geological Survey (June 1982 - July 1985). Ph.D. thesis work, contract mapping in SW Greenland and some undergraduate teaching.

Theses

'Fault systems in the inner Godthabsfjord region of the Archaean Block, southern West Greenland' University of Exeter, UK. Ph.D. dissertation, 1987

Continuing Education Courses Taken

Caney Shale Gas Workshop: Oklahoma Geological Survey and PTTC, Oklahoma City, OK, August 2006

PETRA overview: GeoPlus, Houston, Texas, December 2005

Well stimulation in deep gas reservoirs: PTTC, Houston, Texas, December 2004

Geology along the Wasatch Front: American Association of Petroleum Geologists/Utah Valley State College, Salt Lake City, Utah, May 2003

Using Core Data in Formation Evaluation: Core Lab Petroleum Services, Austin, Texas, March 2003

Areas of Expertise

Areas of Expertise

Hydraulic fractures in core

Natural fracture / vein systems in sedimentary and metamorphic rocks

Structural geology

Tectonics

Awards

Awards and Honorary Societies

Dave P. Carlton Centennial Professorship in Geology, 2023-2024

Bureau of Economic Geology Publication Award, for paper "Gale, J. F. W., Lander, R., Reed, R. M., and Laubach, S. E., 2010, Modeling fracture porosity evolution in dolostone: Journal of Structural Geology, v. 32, p. 1201-1211", 2011

President's Certificate for Excellence, Energy Minerals Division, American Association of Petroleum Geologists, for oral presentation titled "Natural Fractures in Shales: Timing, Sealing, Mechanisms of Formation and Relevance for Shale-Gas Reservoirs", 2011

President's Certificate for Excellence, Energy Minerals Division, American Association of Petroleum Geologists, for poster titled "Natural Fractures in the Barnett Shale: Why They Are Important", 2007

President's Certificate for Excellence, Energy Minerals Division, American Association of Petroleum Geologists, for poster titled "Synkinematic Carbonate Fracture Sealing Cements in Opening-Mode Fractures: Characteristics and Models", 2006

SEPM Honorable Mention, Oral Presentation Award, Understanding fractured carbonate reservoirs, AAPG/SEPM Annual Meeting, Denver, 2001

Recipient of the Clement le Nève Foster Memorial Prize, Imperial College, London, 1982

Publications

Peer Reviewed Journal Articles

Shakiba, M., Lake, L. W., Gale, J. F. W., Laubach, S. E., and Pyrcz, M. J., 2023, Multiscale spatial analysis of fracture nodes in two dimensions: Marine and Petroleum Geology, v. 149, no. 106093, 19 p., <http://doi.org/10.1016/j.marpetgeo.2022.106093>.

Funding

Research Support

Principal Investigator: Hydraulic Fracture Test Site (HFTS1 - Phase 3) Fracture Description, DOE NETL subcontract to GTI (December 1, 2021-June 30, 2022; \$189,412).

Principal Investigator: Hydraulic Fracture Test Site (HFTS2) Slant Core Description, NETL, Subcontract to GTI (October 7, 2019-March 8, 2020; \$200K).

PI: SUTUR2 Wolfcamp, Shell (January 1, 2016-December 31, 2018; \$2.4 million over 3 years).

Researcher: Center for Integrated Seismicity Research, State of Texas (June 21, 2015-June 20, 2017; \$4.47 million).

PI: GTI/NETL Hydraulic Fracture Test Site, NETL (October 15, 2015-December 31, 2016; \$205K).

Principal Investigator: Natural Fracture Characterization in the Vaca Muerta Formation, Neuquen Basin, Argentina., YPF S.A. Argentina (January 1, 2015-December 31, 2016; \$322,203).

Co-PI, Relationships between induced seismicity and fluid injection: development of strategies to manage fluid disposal in shale hydrocarbon plays, RPSEA, March 2013-March 2015, 963,664

PI: Fracture Characterization in the Marcellus Shale, RPSEA (2010 - 2012, \$264,405).

Co-PI: New Albany Shale; 2-year project during 3 fiscal years 2007-8, 2008-9 and 2009-10, RPSEA--Outside (non-BEG) Research Support (July 25, 2008 - July 31, 2010, \$344,018).

Principal Investigator: Acquisition of an electron backscatter detector, Geocosm LLC and Chevron (2006 - 2007, \$10,000).

Principal Investigator: Acquisition of electron backscatter diffraction system, Jackson School match (2005 - 2006, \$58,575).

Co-Principal Investigator: Predicting fracture porosity evolution in sandstone, DOE basic energy sciences, DOE (2003 - 2006, \$600,000).

Principal Investigator: Acquisition of electron backscatter diffraction system, Funding approved by Jackson School (2005, \$58,575).

Principal Investigator: Fracture characterization in Cupiagua field, Ecopetrol (2005, \$22,000).

Principal Investigator: Fracture characterization in Gaviota field, Repsol YPF (2004 - 2005, \$9,414).

Principal Investigator: Radical questioning of carbonate diagenesis paradigms: predicting fracture and porosity evolution in dolostone, Jackson School of Geosciences (2004 - 2005, \$29,594).

Researcher: Fracture Research And Application Consortium, Industrial Associates Program (\$50,000 per company (14 companies to date)).

Service

University Committees

Senior Technical Advisor, Bureau of Economic Geology, September 2021-September 2022

External Committees Participation

Member, AAPG Distinguished Lecturer Committee, May 2019-Present

Chair, Endowment Committee, Jackson School of Geosciences, 2011 - present

Associate Editor, Bulletin, AAPG, 2008 - present

Session Chair, 2007, 2008 Tectonic Studies Group Annual Meetings, Geological Society of London

Session Chair, 2008, 2009, 2010 Annual Meetings, American Association of Petroleum Geologists

Member, Jackson School Appointments Committee, Jackson School of Geosciences, September 2019-September 2022

Member, Endowment Committee, Jackson School of Geosciences, 2010

Member, Publications Board, Bureau of Economic Geology, 2004 - 2009

Session Chair, GSA Annual Meeting, Geological Society of America, 2008

Chair, Oral Session, AAPG 2008 San Antonio Organizing Committee, American Association of Petroleum Geologists, 2006 - 2008

Member, Student Support Committee, Jackson School of Geosciences, The University of Texas at Austin, 2005 - 2008

Technical program Co-Chair, Annual Meeting, Austin, TX, October 30-November 1, Gulf Coast Association of Geological Societies, 2002

Session Chair, Behavior of Shales, Washington D.C., July 7-12, 38th Annual U.S. Rock Mechanics Symposium, 2001

Agent for the University of Derby, Geological Society of London, 1990 - 1998

Member, Promotions Committee, Geological Society of London, 1990 - 1993

Outreach Activities

Careers in Geological Sciences: presented to Lago Vista High School, Lago Vista, Tex., November 28, 2018.

Panelist at public "Hydraulic Fracturing" town-hall-style meeting at University of Texas during UT Energy Week. February 16, 2015.

Presentations

Invited Presentations

Core Fracture Description of the Hydraulic Fracture Test Site (HFTS1) Slant Core, Reagan Co., Midland Basin, Texas: presented to The University of Texas at Austin, Hildebrand Department of

Petroleum and Geosystems Engineering, presented at Graduate Student Seminar Series, September 9, 2019.

Core Fracture Description of the Hydraulic Fracture Test Site (HFTS1) Slant Core, Reagan Co., Midland Basin, Texas: presented to Texas A&M Petroleum Engineering Graduate Student Seminar Series, presented at Texas A&M University, College Station, September 3, 2019.

Hydraulic Fractures in Core from Stimulated Reservoirs: Core Fracture Description of HFTS Slant Core, Midland Basin, West Texas: presented to SPE Gulf Coast Section Houston Reservoir Study Group, luncheon guest speaker, Houston, Tex., February 21, 2019.

Natural Fractures in Shale Hydrocarbon Reservoirs: presented to Tectonic Studies Group, presented at annual meeting, Edinburgh, UK, January 7, 2015.

Bedding-parallel natural fractures: their occurrence in shale plays and possible effects on hydraulic fracture treatments: presented to AAPG/SEG/SPWLA, presented at Hedberg Conference, Austin, Texas, December 8, 2014.

Presentations

Fracture Description of the HFTS-2 Slant Core, Delaware Basin, West Texas: presented at URTeC, Houston, Tex., July 2021.

Deformation bands as fluid pathways in outcrops of Lajas Formation tight-gas sandstone, Neuquén Basin, Argentina: presented to Fracture Research and Application Consortium (FRAC), presented at Annual Sponsors' Meeting, Austin, Tex., November 2019.

HFTS 1 EOR: 5TW Core Proppant Results: presented to HFTS 1 Consortium, presented at Core Laboratories, Houston, Tex., July 18, 2019.

Update on Fracture Description Work for the HFTS1 EOR Project: presented to HFTS1 Consortium by WebEx, January 23, 2019.

Analysis and Distribution of Proppant Recovered from Fracture Faces in the HFTS Slant Core Drilled through a Stimulated Reservoir: presented to Fracture Research and Application Consortium Annual Sponsors' Meeting, Casper, Wyo., September 17-19, 2018.

The University of Texas at Austin Center for Integrated Seismicity Research: presented to Bureau of Economic Geology Visiting Committee, presented at annual meeting, Austin, Texas, August 18, 2015.

Regional Assessment of Induced and Natural Earthquake Potential and Occurrence: presented to industry representatives, presented at Center for Integrated Seismicity scoping meeting, Houston, Texas, May 12, 2015.

TexNet: A Plan to Monitor Seismicity in Texas: presented to Jackson School Advisory Council, presented at Fall meeting, Austin, Texas, November 7, 2014.

Bedding-parallel fractures in shales: How widespread are they? Can they be predicted? Are they important?: presented to Fracture Research and Applications Consortium, presented at Annual Sponsors' meeting, Balcones Springs, Texas, September 16, 2014.

Introduction to Seismicity project: presented to Fracture Research and Application Consortium, presented at Annual Sponsors' Meeting, Balcones Springs, Texas, September 16, 2014.

Overview of Shale Fracture Research Program: presented to Fracture Research and Application Consortium, presented at Annual Sponsors' Meeting, Balcones Springs, Texas, September 16, 2014.

Fracture Spatial Organization Example Applications: presented to Fracture Research and Application Consortium, presented at Annual Sponsors' meeting, Balcones Springs, Texas, September 15, 2014.

AAPG Distinguished Lecturer Series: Natural fractures in shale hydrocarbon reservoirs:

presented to Canadian Society of Petroleum Geologists, Calgary, Alberta, March 25, 2014.

AAPG Distinguished Lecturer Series: Natural fractures in shale hydrocarbon reservoirs: presented to Wyoming Geological Society, Casper, Wyoming, March 14, 2014.

AAPG Distinguished Lecturer Series: Natural fractures in shale hydrocarbon reservoirs: presented to Montana Geological Society, Billings, Montana, March 13, 2014.

AAPG Distinguished Lecturer Series: Fractures across a range of scales: presented at University of Colorado at Boulder, Boulder, Colorado, March 11, 2014.

AAPG Distinguished Lecturer Series: Natural fractures in shale hydrocarbon reservoirs: presented to Saskatchewan Geological Society, Regina, Saskatchewan, March 10, 2014.

AAPG Distinguished Lecturer Series: Natural fractures in shale hydrocarbon reservoirs: presented to San Joaquin Geological Society, Bakersfield, California, March 7, 2014.

AAPG Distinguished Lecturer Series: Natural fractures in shale hydrocarbon reservoirs: presented to Fort Worth Geological Society, Fort Worth, Texas, March 6, 2014.

AAPG Distinguished Lecturer Series: Natural fractures in shale hydrocarbon reservoirs: presented to Oklahoma Geological Society, Oklahoma City, Oklahoma, March 5, 2014.

AAPG Distinguished Lecturer Series: Natural fractures in shale hydrocarbon reservoirs: presented at Colorado School of Mines, Golden, Colorado, March 4, 2014.

Natural Fractures in Shales: presented at Unconventional Energy Research Meeting, Austin, Texas, February 11, 2014.

Fractures across a range of scales (AAPG Distinguished Lecturer Series, 2013-14): presented to Illinois Geological Survey, Champaign, Illinois, October 2013.

Fractures across a range of scales (AAPG Distinguished Lecturer Series, 2013-14): presented to Pittsburgh Association of Petroleum Geologists, Pittsburgh, Pennsylvania, October 2013.

Fractures across a range of scales (AAPG Distinguished Lecturer Series, 2013-14): presented to Pittsburgh Association of Petroleum Geologists, Pittsburgh, Pennsylvania, October 2013.

Natural fractures in shale hydrocarbon reservoirs: presented at Bureau of Economic Geology, The University of Texas, Austin, Texas, October 2013.

Natural fractures in shale hydrocarbon reservoirs: presented at Missouri University of Science and Technology, Rolla, Missouri, October 2013.

Natural fractures in shale hydrocarbon reservoirs: presented at University of Kentucky, Lexington, Kentucky, October 2013.

Natural fractures in shale hydrocarbon reservoirs: presented at Western Michigan University, Kalamazoo, Michigan, October 2013.

Natural fracture occurrence in domestic unconventional plays: frequency and prediction: presented to Houston Geological Society Applied Geoscience Meeting, Houston, Texas, 2013.

Report of activities presented to FRAC members: presented to Nexen, Austin, Texas, July 6, 2012.

Report of activities presented to FRAC members: presented to YPF, Buenos Aires, Argentina, June 24-30, 2012.

Report of activities presented to FRAC members: presented to Pace Oil and Gas, Houston, Texas, June 21, 2012.

ExxonMobil project on fracture plane strength: presented at ExxonMobil, Houston, Texas, June 20, 2012.

Report of activities presented to FRAC members: presented to Shell, Houston, Texas, June 14,

2012.

Natural fractures in the Marcellus Shale: presented at MSRL Annual Sponsors' Group Meeting, Austin, Texas, March 6-7, 2012.

Talk presented at potential research funding meeting with BP: presented at Bureau of Economic Geology, Austin, Texas, February 6, 2012.

Report of activities presented to FRAC members: presented to Devon, Austin, Texas, January 24, 2012.

ExxonMobil project on fracture plane strength: presented at Bureau of Economic Geology, Austin, Texas, December 15, 2011.

Natural fractures in the Marcellus Shale: presented at FRAC Annual Sponsors' Group Meeting, Santa Barbara, California, November 7-11, 2011.

Natural fractures in the New Albany Shale: presented at RPSEA Unconventional Gas Conference: Technological Keys to Unlocking Additional Reserves, Denver, Colorado, April 19, 2011.

Natural fractures in shale-gas reservoirs and their importance for gas production: presented at UT AAPG Student Chapter Unconventional Reservoir Workshop, Austin, Texas, March 28, 2011.

Natural fractures in shale-gas reservoirs and their importance for gas production: presented at Unconventional Workshop sponsored by UT AAPG Student Chapter, Houston, Texas, April 10-13, 2011.

Natural fractures in shales and their importance for gas production: presented to the Department of Petroleum and Geosystems Engineering, The University of Texas at Austin, Austin, Texas, August 2010.

Natural fractures in gas shales and their importance for gas production: presented at Global Unconventional Gas Meeting, Amsterdam, Netherlands, June 2010.

Natural fracture studies in the New Albany Shale: presented at RPSEA Unconventional Gas Conference 2010: Technological Keys to Unlocking Additional Reserves, Golden, Colorado, April 2010.

Discussion of shale fracture program & plans: presented at Annual Sponsors' Group Meeting of the Fracture Research and Application Consortium, Austin, Texas, November 2009.

Fracture characterization in the New Albany Shale: presented at Annual Sponsors' Group Meeting of the Fracture Research and Application Consortium, Austin, Texas, November 2009.

Origins and mechanisms of fracturing in the Barnett Shale in the Delaware Basin: a fluid inclusion study: presented at Annual Sponsors' Group Meeting of the Fracture Research and Application Consortium, Austin, Texas, November 2009.

Natural fractures in shales: origins, characteristics and relevance for hydraulic fracture treatments: presented at Houston Geological Society Luncheon Meeting, Houston, Texas, October 21, 13, 2009.

Applications of Cores to Permian Basin Reservoir Characterization: presented at Southwest Section, American Association of Petroleum Geologists, Annual Meeting, Midland, Texas, April 25, 2009.

Natural fractures in the Barnett Shale in the Delaware Basin, Pecos Co., West Texas: comparison with the Barnett Shale in the Fort Worth Basin: presented at North Texas Geological Society Luncheon Meeting, Irvine, Texas, January 15, 2009.

Natural Fractures in the Barnett Shale: workshop presented at Unconventional Gas Technical Forum, Victoria, British Columbia, April 3-4 2008.

Fracture enhanced permeability within a crystalline porous dolostone matrix: a reservoir model in the Knox Formation, Maben gas field, Mississippi: presented at the AAPG Annual Convention, San Antonio, Texas, April 2008.

Natural fractures in shales: origins, characteristics, and relevance for hydraulic fracture treatments: presented at the AAPG Annual Convention, San Antonio, Texas, April 2008.

Natural fractures in the Barnett Shale and their importance for hydraulic fracture treatments: presented at Unconventional Gas Technical Forum, Victoria, British Columbia, Canada, April 2008.

Natural fractures in the Barnett Shale: presented to Society of Petrophysicists and Well Log Analysts, Austin, Texas, June 3, 2007.

Natural fractures in the Barnett Shale: presented at STARR/PTTC Seminar, Houston, Texas, November 14, 2006.

Natural fractures in the Barnett Shale: presented at STARR/PTTC Seminar, Midland, Texas, November 8, 2006.

RMAG and PTTC shale gas core workshop: presented to U.S. Geological Survey, Lakewood, Colorado, September 26, 2006.

Natural fractures in the Barnett: presented at Rocky Mountain Association of Geologists and Rocky Mountain PTTC 2006 Fall Symposium: Shale gas: from grass roots exploration to production, Denver, Colorado, September 25, 2006.

Carbonate structural diagenesis initiative: presented at FRAC IA program sponsors' annual research meeting, Austin, Texas, July 22, 2005.

Testing fracture intensity measures: presented at FRAC IA sponsors' annual research meeting, Austin, Texas, July 22, 2005.

Fractures in dolostones workshop 2: presented to carbonate diagenesis and fracture specialists at the Bureau of Economic Geology, Austin, Texas, July 12, 2005.

Modeling fracture sealing in dolostones: presented to carbonate diagenesis specialists at the Bureau of Economic Geology, Austin, Texas, January 28, 2005.

Fracture size scaling results and interpretation of patterns: presented at Fracture Research and Application Consortium Annual Research Meeting, Park City, Utah, July 19, 2004.

Predicting and characterizing fractures in hydrocarbon reservoirs: using the link between diagenesis and fracturing: presented at Houston Structural Geology Group Meeting, Bureau of Economic Geology Houston Core Facility, January 16, 2003.

Predicting and characterizing fractures in dolomite reservoirs: using the link between diagenesis and fracturing: presented at Geological Society Meeting, Burlington House, London, England, December 2002.

Structural diagenesis: establishing P-T-t-d paths for opening mode fractures: presented at Research Seminar Series, School of Environmental and Applied Sciences, The University of Derby, UK, September 27, 2001.

Fracture Research and Application Consortium research update: presented at review meeting, BG Group, Reading, UK, September 25, 2001.

Are open fractures aligned with maximum horizontal stress in the Rockies?: presented at Rocky Mountain Association of Geologists luncheon meeting, July 20, 2001.

Demonstration on geological mapping: presented to school visitors, Bureau of Economic Geology, The University of Texas at Austin, Austin, TX, April 2001.

Permeability prediction and horizontal well design and Stress sensitivity of natural fractures:

presented at Fracture Research and Application Consortium: Technical Review Meeting, The Bureau of Economic Geology, The University of Texas at Austin, Austin, Texas, February 2001.

Stress sensitivity of natural fractures: presented at technical review meeting, Fracture Research and Application Consortium, Bureau of Economic Geology, The University of Texas at Austin, Austin, Texas, February 2001.

Spatial organization of natural opening mode fracture systems: poster presented at 2000 SPE Forum Series in Europe, Forum II Fractured Reservoirs: Challenges and Opportunities for Their Integrated Characterization and Exploitation, Sainte Maxime, France, September 10-15, 2000.

Fracture spatial distribution: research update: presented to Fracture Research and Application Consortium, Spring Applications Workshop, Bureau of Economic Geology, The University of Texas at Austin, Austin, Texas, May 2000.

Characterization of fracture systems in the subsurface: from microfractures to macrofractures: presented at Schlumberger-Doll Research, Ridgefield, Connecticut, April 2000.

Scaling analysis of fractures in the Austin Chalk: presented to Chevron USA Production Company, Wilcrest, Houston, TX, March 2000.

Fracture spatial organization: empirical analysis and scaling: presented at Department of Geological Sciences, Hard Rock Seminar Series, The University of Texas at Austin, Austin, Texas, January 2000.

Fracture spatial organization: empirical analysis and scaling: presented at School of Environmental and Applied Sciences Seminar Series, The University of Derby, Derbyshire, UK, January 2000.

Structural analysis of slant and horizontal curves, Austin Chalk deep gas play: presented to Chevron USA Production Company, Bureau of Economic Geology, The University of Texas at Austin, Austin, Texas, December 1999.

Fracture characterization in the Apon Formation: outcrop studies at Carrasquero Quarry: presented to PDVSA-Maracaibo and FLSTP-Maracaibo, Bureau of Economic Geology, The University of Texas at Austin, Austin, Texas, September 1999.

Fracture Spatial Organization I: Empirical analysis and scaling: presented at the Fracture Research and Application Consortium, Technical Review Meeting, Bureau of Economic Geology, The University of Texas at Austin, Austin, Texas, September 1999.

Status of fractured carbonate reservoir studies: presented to the Fracture Research and Application Consortium, Technical Review Meeting, Bureau of Economic Geology, The University of Texas at Austin, Austin, Texas, September 1999.

Scaling analysis of core and outcrop analogues, Austin Chalk: presented to Chevron USA Production Company, Bureau of Economic Geology, The University of Texas at Austin, Austin, Texas, May 1999.

Natural fractures in shale hydrocarbon reservoirs: presented to BHP Billiton, Houston, Texas, May 2014

Activities of a Professional Nature

Professional Societies

American Association of Petroleum Geologists

American Rock Mechanics Association

Geological Society of London (Fellow)

Major Field Campaigns

Joint fracture characterization project with YPF; included 2 weeks of field work examining Vaca

Muerta outcrops in Neuquén Province, Argentina. March 7-22, 2015.

Program and Project Management

SUTUR 2 Wolfcamp Principal Investigator, project proposal development. Funding will be ~ \$600,000 per year for 4 years, commencing Fall 2015

Activities of a Professional Nature

Core demonstration for teachers, Bureau of Economic Geology, March 11, 2003

Earth Science Week Career Fair presentation, Field Geologist: The Earth Is My Office, October 16, 2006

Earth Science Week Career Fair presentation, Field Geologist: The Earth Is My Office, October 2007

Earth Science Week Career Fair presentation, Field Geologist: The Earth Is My Office, October 2008

Research supervision of Visiting Scientist Dr. Virginio Neumann from the University of Pernambuco, Brazil. Dr. Neumann is working on fracture systems in carbonates. August 2005-January 2007

Science Fair Judge, Blackwood Elementary School, Round Rock, January 2006

Supervision of David Freire, Master's student from University Simon Bolivar, Venezuela, as part of Repsol YPF fracture analysis program in Tropical field, 3-semester visit, 2004-2005.

Volunteer at Earth Science Week Summer Science Festival, Zilker Park, June 17, 2006

Teaching and Advising

University Courses Taught

Natural fractures in shale gas systems: presented to Advances in Unconventional Shale Gas Resources Graduate Student class, Department of Geological Sciences, The University of Texas at Austin, Austin, Texas, 2010.

Natural fractures in shale-gas reservoirs: why they are important: presented at BEG Seminar, Bureau of Economic Geology, Austin, Texas, 2008.

Geological fieldwork in Greenland: presented at Bureau of Economic Geology Research Seminar, The University of Texas at Austin, Austin, Texas, August 11, 2006.

Predicting fracture and porosity evolution in dolostone: presented at Bureau of Economic Geology research seminar, The University of Texas at Austin, Austin, Texas, March 2006.

Description of natural fractures in core: presented to Geology for Engineers graduate student class, Department of Petroleum and Geosystems Engineering, The University of Texas at Austin, Austin, Texas, November 18, 2004.

The scaling of natural fracture systems: presented to Geology for Engineers graduate student class, Department of Petroleum and Geosystems Engineering, The University of Texas at Austin, Austin, Texas, September 23, 2004.

Effect of modern state of stress on flow-controlling fractures: a misleading paradigm in need of revision: presented at Bureau of Economic Geology research seminar, The University of Texas at Austin, Austin, TX, February 23, 2001.

Specifying lengths of horizontal wells: presented at Bureau of Economic Geology research seminar, The University of Texas at Austin, Austin, TX, January 2000.

Continuing Education Courses Taught

Discussion of shale fracture program and plans: presented at the Annual Sponsors' Group

Meeting of the Fracture Research and Application Consortium, Austin, Texas, September 2010.

Fracture characterization in the New Albany Shale: presented at the Annual Sponsors' Group Meeting of the Fracture Research and Application Consortium, Austin, Texas, September 2010.

Natural fractures in shales: timing, sealing, mechanisms of formation, and relevance for shale-gas reservoirs: presented at the Petrology Geochemistry Structure and Tectonics seminar series, Department of Geological Sciences, The University of Texas at Austin, Austin, Texas, September 2010.

Fracture characterization in the New Albany Shale: presented at Annual Sponsors' Group Meeting of the Mudrocks Systems Research Laboratory, Austin, Texas, January 2010.

Natural fractures in shales: origins, characteristics and relevance for hydraulic fracture treatments: presented at SPE Meeting, Irving, Texas, November 2008.

Natural fractures, stress, and induced fractures in the Barnett Shale: presented at Schlumberger, Houston, Texas, April 13, 2007.

Natural fractures, stress, and induced fractures in the Barnett Shale: presented at Shell, Houston, Texas, December 4, 2006.

Natural fractures in the Barnett Shale: presented at Fracture Research Consortium, Annual Sponsors' Meeting, Teton Village, Wyoming, October 2006.

Barnett Shale fracture overview: presented at Permian Basin Geological Synthesis Project Annual Meeting, Austin, Texas, February 27, 2006.

Olmos Formation fracture study, Gold River field, S. Texas: progress report: presented at Huber Energy at Huber Offices, Houston, Texas, August 11, 2005.

Understanding, predicting, characterizing, and simulating reservoir-scale fracture systems: presented at the Marathon Oil Company Technology Fair, Houston, Texas, May 4, 2005.

Fracture Research and Application Consortium Short Course: presented to Ecopetrol and Instituto Colombiano del Petroleo, Bucaramanga, Colombia, March 15-16, 2005.

Fracture Research and Application Consortium Short Course: presented to Devon Canada, Calgary, Canada, January 11-12, 2005.

Fracture Research and Application Consortium: research update: ConocoPhillips, Houston, Texas, December 15, 2004.

Field Trips Leadership

Leader, Fracture Spatial Organization Field Workshop, Fracture Research and Application Consortium, The University of Texas at Austin, Pedernales Falls State Park, September 15, 2014.

Leader, Fractures in Devonian Shales and Limestones in the Finger Lakes District, New York State: Fracture Research and Application Consortium Annual Sponsors' Meeting, Rochester, New York, 2012.

Leader, Natural Fractures in Carbonates and Shales in the Texas Hill Country: Fracture Research and Application Consortium Annual Sponsors' Meeting, Austin, Texas, 2010.

Leader, Natural Fractures in Carbonates and Shales in the Texas Hill Country: Fracture Research and Application Consortium Annual Sponsors' Meeting, Austin, Texas, 2009.

Co-Leader, Paleozoic reservoir systems: Texas Hill Country--stratigraphy to petrophysics: sponsored by SPWLA, Austin, Texas, June 2007.

Leader, Fractures in Central Texas: OGCI, Austin, Texas, May 2007.

Leader, Fractures in Central Texas: OGCI, Austin, Texas, April 2006.

Leader, Fractures in Central Texas: OGCI, Austin, Texas, November 2005.

Leader, Fractures in Central Texas: OGCI Course (run by Robert Skopec), Austin, Texas, November 2004.

Leader, Fractures in Central Texas: Oil & Gas Consultants International, Inc., Austin, Texas, October 2003.

Leader, Fractures in Central Texas: OGCI Applied Rock Mechanics Course, , Central Texas, December 2002.

Leader, Fractures in Central Texas: Oil & Gas Consultants International, Inc., December 2002.

Leader, Fractures in Central Texas: OGCI Applied Rock Mechanics Course, , Central Texas, September 2002.

Leader, Fractures in Central Texas: Oil & Gas Consultants International, Inc., September 2002.

Co-Leader, Fractures in Central Texas: issues in fracture characterization: Schlumberger, June 2001.

Reservoir and Modeling School, Fractures in Central Texas: Issues in Fracture Characterization: AAPG, November 1999.

Annual Meeting, Fracture Spatial Organization: Analysis Using an Indicator Semivariogram, Pedernales Falls State Park: North American Council on Geostatistics, Austin, Texas, October 1999.

Fractures in Central Texas: Issues in Fracture Characterization: BP-Amoco, October 1999.

Student Committee Supervision

Co-Advisor, MS, Thesis Committee, Bethany Rysak, Hydraulic fracture propagation mechanisms from direct observation in the Hydraulic Fracture Test Site (HFTS1) slant core, Wolfcamp Fm., Midland Basin, West Texas, University of Texas at Austin, 2021

Co-Advisor, M.S., Project Supervision Committee, John Z. Li, Spatial organization of opening-mode fractures using image log and drilling data, The University of Texas at Austin, 2015

MS, Co-advisor, Qiqi Wang, Bedding-parallel fractures in shale, The University of Texas at Austin, Austin, 2014

Co-Supervisor, M.S. Thesis Committee, Laura Pommer, Fracture Characterization in the Marcellus Shale: The University of Texas at Austin, 2010

Co-Supervisor, M.A. Thesis Committee, Walaa Awaad AliF, Lithofacies, Depositional Environment, Burial History and Calculation of Organic Richness from the Wireline Logs: A Study of Barnett Shale in the Delaware Basin, Pecos Co., West Texas, and Comparison with the Barnett Shale in the Fort Worth Basin: The University of Texas at Austin, Austin, Texas, Completed, 2009

Co-Supervisor, M.S. Thesis Committee, Luke Fidler, Fracture Characterization in the New Albany Shale: The University of Texas at Austin, 2009

Co-supervisor, Ph.D. dissertation committee, Carty, J. P., Deformation, magmatism, metamorphism and fluid movement in the Portsoy Shear Zone, NE Scotland, University of Derby, Derby, Derbyshire, United Kingdom, 2001

Co-supervisor, Ph.D. dissertation committee, Watson, A. P., The timing and significance of veins in Greenschist facies metamorphic rocks with particular reference to the Precambrian of N. Anglesey, Wales, University of Derby, Derby, Derbyshire, United Kingdom, 1999

Student Committee Participation

Ph.D., Qiqi Wang, Fracture Spatial Arrangement in the Context of Diagenesis, The University of Texas at Austin, 2023

Ph.D., Rodrigo Correa, STRUCTURAL DIAGENESIS AND SPATIAL ARRANGEMENT OF FRACTURES IN CARBONATE ROCKS, The University of Texas at Austin, 2023

Ph.D., Mahmood Shakiba, Multiscale Spatial Analysis and Modeling of Fracture Arrangements, Dept. Petroleum and Geosystems Engineering, University of Texas at Austin, 2021

Ph.D. Proposal, Kaimin Yue, Height Containment of Hydraulic Fractures in Layered Reservoirs, Dept. of Petroleum and Geosystems Engineering, The University of Texas at Austin, 2016

Member, Ph.D., Dissertation Committee, Weiwei Wu, Acid fracturing shales: behavior of propped and unpropped fractures, The University of Texas at Austin, 2015

Member, Ph.D. Dissertation Committee, Ming Gu, Improvement of Fracturing Fluid for Hydraulic Fracturing in Gas Shales: The University of Texas at Austin, 2010

Member, Ph.D. Dissertation Committee, Faustino Santiago Monroy, The University of Texas at Austin, 2005

Member, Ph.D. Dissertation Committee, Leonel Gomez, Characterization and Prediction of the Spatial Distribution of Opening Mode Fractures: The University of Texas at Austin, Austin, Texas, 2003

Ph.D. Dissertation Committee, James P. Carty, Deformation, Magmatism, Metamorphism and Fluid Movement in the Portsoy Shear Zone, NE Scotland: University of Derby, Derbyshire, UK, March, 2001

Co-supervisor, Ph.D. dissertation committee, Watson, A. P., The timing and significance of veins in Greenschist facies metamorphic rocks with particular reference to the Precambrian of N. Anglesey, Wales, University of Derby, Derby, Derbyshire, United Kingdom, 1999

Ph.D. Dissertation Committee, Adrian P. Watson, The Timing and Significance of Veins in Greenschist Facies Metamorphic Rocks with Particular Reference to the Precambrian of N. Anglesey, Wales: University of Derby, Derbyshire, UK, July, 1999
